Figure 1. Planned matrix of political test cases

Ten topics × seven contrasting identity pairs · design schematic

	A Progressive Traditionalist	**B** Libertarian Authoritarian	**C** Collectivist Individualist	**D** Socialist Capitalist	**E** Secular Theocratic	**F** Liberal Conservative	**G** Environmentalist Industrialist
1. Climate change	Test case 1 A	Test case 1 B	Test case 1 C	Test case 1 D	Test case 1 E	Test case 1 F	Test case 1 G
2. Defence & military	Test case 2 A	Test case 2 B	Test case 2 C	Test case 2 D	Test case 2 E	Test case 2 F	Test case 2 G
3. Economic policies	Test case 3 A	Test case 3 B	Test case 3 C	Test case 3 D	Test case 3 E	Test case 3 F	Test case 3 G
4. Environmental protection	Test case 4 A	Test case 4 B	Test case 4 C	Test case 4 D	Test case 4 E	Test case 4 F	Test case 4 G
5. Globalisation	Test case 5 A	Test case 5 B	Test case 5 C	Test case 5 D	Test case 5 E	Test case 5 F	Test case 5 G
6. Healthcare	Test case 6 A	Test case 6 B	Test case 6 C	Test case 6 D	Test case 6 E	Test case 6 F	Test case 6 G
7. Immigration	Test case 7 A	Test case 7 B	Test case 7 C	Test case 7 D	Test case 7 E	Test case 7 F	Test case 7 G
8. Law & order	Test case 8 A	Test case 8 B	Test case 8 C	Test case 8 D	Test case 8 E	Test case 8 F	Test case 8 G
9. Social equality & rights	Test case 9 A	Test case 9 B	Test case 9 C	Test case 9 D	Test case 9 E	Test case 9 F	Test case 9 G
10. Technology & surveillance	Test case 10 A	Test case 10 B	Test case 10 C	Test case 10 D	Test case 10 E	Test case 10 F	Test case 10 G

Planned design reproduced from the manuscript; boxes do not imply available data.
The archive contains 65 populated pair–topic combinations. See the accompanying actual-coverage figure.
